# About North London Collegiate School

NLCS is one of the UK's finest schools. Founded in 1850, the school has a rich history of academic success, and for the last 20 years it has consistently achieved top 10 rankings nationally across GCSE and A-Level results. Educationally pioneering and blending superb pastoral care and student enrichment opportunities with outstanding academics, NLCS also regularly achieves International Baccalaureate diploma results that place it among the very best schools in the world.

The first NLCS international school opened in Korea in 2011, and the NLCS group has since expanded to also include schools in Dubai and Singapore. All our international schools are highly regarded for the quality of education their students receive and link closely to NLCS (UK) through our pioneering 'communities of practice'.

We have a proven track record of establishing superb schools in a range of different educational models, including co-educational and single sex, day and boarding schools, with a variety of curriculum offerings tailored to the target market.

# About NLCS Kobe

NLCS Kobe will open its doors in August 2025, as the newest member of the NLCS family of schools. Our school will be a selective co-educational day school for students from grade 1 to 6. The school will be based in the AsiaOne building on Rokko Island, Kobe, with good access to the commercial centres of Osaka and Kobe, as well as the airport and port areas.

We believe that a happy student is a successful student, and a balance in school life is essential. We will recruit some of the best teachers from around the world; they will be highly qualified and will inspire their students to discover a love of learning that will last a lifetime.

*“ It is our responsibility to provide students with ‘floors, not ceilings’ so that we can nurture their individual talents, confidence and self-worth and enable them to run their own race. ”*

Teachers will be carefully selected for their love of subject and will spend time at NLCS (UK) to ensure they understand and share the NLCS school ethos. They will encourage students to explore beyond curriculum boundaries and discover their own passions. Our teachers will know their students well and celebrate each one as the individual they are. The school will feel busy and purposeful, with warm and respectful relationships developed between staff and students and between the students themselves. It will be a place where everyone matters.

We believe that by supporting students in every aspect of their lives, and removing all barriers to learning, they will perform to their full potential. We will address any issue that can affect a child's learning with conviction, professionalism, and purpose. We will also ensure that our students have a balanced approach to their school years, which will include appropriate levels of sleep, exercise, social activity, and academic pursuits.

# Rokko Mountains

Once construction is complete, our permanent senior school site for grades 6 to 12 will sit on the scenic Rokko Mountains. Located in the densely wooded hills overlooking the port of Kobe, our school will provide a tranquil atmosphere, giving students the opportunity to study in a unique natural setting, enhancing their educational experience.

A unique curriculum will be adopted that leverages the natural environment of Mount Rokko to further our students' individuality, with the aim to provide a world-class education that will attract attention from abroad. The rich natural environment of Mount Rokko in Kobe will greatly contribute to the well-being and the learning environment at our school.
